Test protocol for review: KA-001 v1

Order entry form — display and input validation

Review copy. The item that is approved and executed is the protocol file **KA-001-order-form.yaml**, identified by sha256 `6cf0f5327f2d9faf2ff1b193c835658b49864c1c445f0dc297f6154e4b0e4a5b`. This copy is generated from that file by validshot and adds nothing to it; the exact file is reproduced in Appendix A. If the two ever differ, the file governs.

1. Protocol

Protocol ID / version	KA-001 v1
Title	Order entry form — display and input validation
System	KA Order Entry (known-answer test app)
Protocol file	KA-001-order-form.yaml · sha256 `6cf0f5327f2d9faf2ff1b193c835658b49864c1c445f0dc297f6154e4b0e4a5b`
Approval status	Not yet approved (no lock file).
Size	10 steps, 26 checks, 4 requirements
Review copy generated	2026-11-10T15:47:33.414Z by validshot 0.2.0

2. Test environment and execution rules

System under test	http://127.0.0.1:4173/good (the initiator may point a run elsewhere; the record then flags the override)
System version	read at run start from /version.json (field version)
Browser	Chromium driven by Playwright 1.64.0; the exact browser build is recorded by each run
Screen and locale	viewport 1280×800, scale 1, timezone UTC, locale en-US, light scheme, reduced motion
Timeouts	each action 5000 ms; each check must hold within 2000 ms unless stated otherwise
Failure handling	A failed check is recorded as FAIL with its actual value and the run continues. A failed action fails its step and every later step is recorded as BLOCKED. Nothing is retried.

How a check is judged: text is compared as displayed, with runs of whitespace collapsed. A target must match exactly one element; two or more matches FAIL as ambiguous. Every check of shown text or visibility also requires the element to be displayed intact: inside the screen, not covered by another element and its text not cut off. Actual values, pass/fail, timestamps and screenshots are recorded automatically by each run in its execution record.

3. Requirements and coverage

Requirement	Text	Steps	Coverage
REQ-010	The order page shows the selected product's full name, its stock status and unit price.	1, 2	covered
REQ-011	The total equals quantity × unit price, rounded to the cent.	2	covered
REQ-020	Quantity accepts whole numbers from 1 to 99; anything else shows an error and disables ordering.	3, 4, 5, 6, 7, 8, 9	covered
REQ-030	Placing an order shows a confirmation with quantity and product.	10	covered

4. Test steps

Every check of shown text or visibility also requires the element to be displayed intact (section 2); exceptions are marked.

Step	Req	Action	Expected result
1	REQ-010	**Open the order page.** 1. open /	• **A1** heading "Order" is visible • **A2** field labelled "Selected product" shows exactly "Standard reagent kit" • **A3** field labelled "Stock status" shows exactly "In stock" • **A4** field labelled "Unit price" shows exactly "$12.50" • **A5** field labelled "Total" shows exactly "$12.50"
2	REQ-010 REQ-011	**Select the calibrator set and enter quantity 3.** 1. choose "Extended-range calibrator set for high-throughput analyzers" in field labelled "Product" 2. enter "3" into field labelled "Quantity"	*The full product name is readable, the stock badge reads "Low stock", total is $569.97.* • **A1** field labelled "Selected product" shows exactly "Extended-range calibrator set for high-throughput analyzers" • **A2** field labelled "Stock status" shows exactly "Low stock" • **A3** field labelled "Unit price" shows exactly "$189.99" • **A4** field labelled "Total" shows exactly "$569.97"
3	REQ-020	**Edge case, lower boundary: enter quantity 1.** 1. enter "1" into field labelled "Quantity"	• **A1** alert shows exactly "" Display check off: the error area is empty when there is no error • **A2** button "Place order" is enabled • **A3** field labelled "Total" shows exactly "$189.99"
4	REQ-020	**Edge case, upper boundary: enter quantity 99.** 1. enter "99" into field labelled "Quantity"	• **A1** button "Place order" is enabled • **A2** field labelled "Total" shows exactly "$18809.01"
5	REQ-020	**Edge case, below range: enter quantity 0.** 1. enter "0" into field labelled "Quantity"	• **A1** alert shows exactly "Quantity must be a whole number from 1 to 99" • **A2** button "Place order" is disabled • **A3** field labelled "Total" shows exactly "—"
6	REQ-020	**Edge case, above range: enter quantity 100.** 1. enter "100" into field labelled "Quantity"	• **A1** alert shows exactly "Quantity must be a whole number from 1 to 99" • **A2** button "Place order" is disabled
7	REQ-020	**Edge case, not a number: enter "abc".** 1. enter "abc" into field labelled "Quantity"	• **A1** alert shows exactly "Quantity must be a whole number from 1 to 99" • **A2** button "Place order" is disabled
8	REQ-020	**Edge case, decimal: enter "2.5".** 1. enter "2.5" into field labelled "Quantity"	• **A1** alert shows exactly "Quantity must be a whole number from 1 to 99" • **A2** button "Place order" is disabled
9	REQ-020	**Edge case, empty: clear the field.** 1. enter "" into field labelled "Quantity"	• **A1** alert shows exactly "Quantity must be a whole number from 1 to 99" • **A2** button "Place order" is disabled
10	REQ-030	**Enter quantity 2 and place the order.** 1. enter "2" into field labelled "Quantity" 2. click button "Place order"	• **A1** field labelled "Order confirmation" shows exactly "Order placed: 2 × Extended-range calibrator set for high-throughput analyzers"

Review and approval

- Every requirement in scope is listed and covered, or its omission is explained.
- Every expected value follows from the requirement or an independent calculation, not from what the application currently shows.
- Edge cases the requirements speak to are tested; notes and conversion decisions are acceptable.
- The sha256 above is the sha256 printed by `validshot check KA-001-order-form.yaml`.

Approval is recorded with `validshot lock KA-001-order-form.yaml --approver "Name" --reason "…"`, which pins sha256 `6cf0f5327f2d9faf2ff1b193c835658b49864c1c445f0dc297f6154e4b0e4a5b`. Any later change to the file requires a new review and lock.
